

## Allocation of Federal Funds

In FY 1997/98, the BOC requested proposals from all counties, emphasized that adding bed space was a state legislative priority, and indicated that adult facility proposals to add bed space would be given more favorable consideration than proposals to make general modifications or improvements. County proposals exceeded available funds. The BOC formed an executive steering committee composed of BOC members, sheriffs, chief probation officers, and others to review proposals and develop funding recommendations based on evaluation criteria that included: demonstrated need; index of cost-effectiveness; thoroughness of construction work plan; readiness to proceed; and board of supervisors' commitment to meet match requirements and fully and safely staff and operate the facility.

Figure 7 shows grants awarded by the BOC to counties in FY 1997/98 for juvenile facility construction projects, and Figure 8 shows grants awarded to counties for adult facility projects.

The BOC is providing project oversight and technical assistance to federally funded projects via the same type of collaborative partnership as the bond program. Counties define their needs and assume primary responsibility for facility design and construction. The BOC provides technical support from pre-architectural planning through occupancy. Under federal law, projects funded in FY 1997/98 must be complete by June 30, 2001. Projects funded in FY 1998/99 must be complete by June 30, 2002.
